1. Competition Overview

1.1 Purpose

The Indiana Esports Network (IEN) establishes this ruleset to define the official competition standards for **Super Smash Bros Ultimate**.

This document provides the information required for schools, coaches, and students to participate in IEN competition.

All participants must also follow the requirements established in the current IEN Member Handbook.

1.2 Competition Model

Competition Type:

Team-Based

Description:

Super Smash Bros. Ultimate (SSBU) is a competitive platform fighting game in which two schools compete using roster-based Crew Battles. Players face opponents in a series of one-versus-one matches, carrying over their remaining stocks until eliminated. The team with players remaining after all members of the opposing team have been eliminated is declared the winner. Success requires mechanical skill, matchup knowledge, strategic decision-making, adaptability, and effective team coordination throughout the competition.

2. Team and Player Structure

2.1 Roster Information

Requirement	Details
Minimum Roster	4 starters 1sub
Maximum Roster	6
Active Players	4
Substitutes	2

2.2 Coaches

Coach requirements:

All coach eligibility, supervision, and participation requirements are governed by the IEN Bylaws and General Competition Rules.

3. Match Format

3.1 Competition Format

Super Smash Bros. Ultimate competitions shall be conducted using a **Crew Battle** format between two schools.

- Each school shall field a roster of eligible players as established by league rules.
- Matches will consist of a series of one-versus-one games played between members of opposing teams.
- Each player begins their game with the designated number of stocks established by the competition settings.
- When a player wins a game, they remain in the lineup and carry their remaining stocks into their next game against an opposing player.
- When a player loses all stocks, they are eliminated from the Crew Battle and replaced by the next eligible teammate.
- This process continues until all players from one team have been eliminated.

Determining the Winner

- The team with at least one player remaining after all opposing players have been eliminated shall be declared the winner of the Crew Battle.
 - Remaining stocks are used to determine continued play within the Crew Battle and may be used for statistical purposes.
 - The outcome of the Crew Battle determines the match winner, regardless of the number of stocks remaining at the conclusion of the final game.
-

3.2 Match Structure

Category	Details
Match Type	Team-Based Best-of-Three (Bo3) Series
Games Per Match	1

Victory Condition	The first team to win two (2) matches shall be declared the match winner. If neither team secures a majority of map victories after all scheduled maps have been played, the match shall be recorded as a tie.
-------------------	--

3.3 Tie Procedures

If a Crew Battle ends with no clear winner due to a simultaneous final stock elimination, game result dispute, or other circumstance resulting in a tie, the match shall be resolved as follows:

1. **Remaining Stocks** shall be compared first.
 2. If remaining stocks are equal, **total damage percentage** on the final active players shall be compared, with the player having the lower damage percentage being declared the winner.
 3. If a winner still cannot be determined, a **one-stock, three-minute tiebreaker game** shall be played using the same stage and character selections from the tied game unless otherwise directed by league administration.
 4. The winner of the tiebreaker game shall be declared the winner of the Crew Battle.
