1. Competition Overview

1.1 Purpose

The Indiana Esports Network (IEN) establishes this ruleset to define the official competition standards for **Minecraft**.

This document provides the information required for schools, coaches, and students to participate in IEN competition.

All participants must also follow the requirements established in the current IEN Member Handbook.

1.2 Competition Model

Competition Type:

☐ Team-Based
Description:

Minecraft BedWars is a team-based competitive strategy game where schools field teams of four players. Teams compete in a Best-of-3 map series on CompMC servers with the goal of destroying the opponent team's bed and as many opponent players as possible. All varsity teams qualify for a single-elimination playoff bracket.

3. Team and Player Structure

3.1 Roster Information

Requirement	Details
Minimum Roster	5
Maximum Roster	6
Active Players	4
Substitutes	2

3.2 Coaches

Coach requirements:

All coach eligibility, supervision, and participation requirements are governed by the IEN Bylaws and General Competition Rules.

3. Match Format

3.1 Competition Format

Match Format: All regular season and playoff matches are played as a **Best-of-Three (Bo3)** series. Each series consists of up to three BedWars games played on the following maps in order:

1. Undergrowth
2. Savoy
3. Riptide

A game winner is determined when only one team's players remain alive or the game timer expires.

3.2 Match Structure

A team's score is determined by gameplay performance across all maps.

A team is declared the winner if they are the last team standing or if they are the only team with a bed at the end of the map timer.

If both teams have lost their beds at the end of the game timer, the team with the most remaining players is the winner. If both teams have lost their beds **and** have the same number of remaining players, the team who destroyed the opponent team's bed **first** will be declared the winner.

3.3 Tie Procedures

If neither team destroys a bed, an additional head-to-head tiebreaker game is played using the next map in the rotation until a winner is determined in a Bo3.
