— NETWORK —

Quick Reference

This section provides a summary of the most important competition information.

Category	Information
Competition Type	Individual
Platform	PC
Team Size	Up to 5 drivers per school
Maximum Roster	5 (may be increased with iRacing Coordinator approval)
Match Format	Weekly race session: practice, qualifying, and race
Match Length	20-minute race (1-hour session)
Race Day	Thursdays, 5:00 PM ET (Drivers Meeting at 4:40 PM ET)
Scoring System	Qualifying points + race points + bonus points (max 76 per session)
Playoff Format	None — regular season extends into the first week of playoffs
Championship Format	Driver with the most season points wins

Coach Checklist

Before the Season

- ☐ Confirm school membership in the Indiana Esports Network
- ☐ Complete LeagueOS registration
- ☐ Submit the IEN iRacing Google Form (found in the iRacing coach Discord channel)
- ☐ Verify student eligibility and iRacing accounts in good standing
- ☐ Confirm each driver's iRacing account uses their real name
- ☐ Have drivers request to join the IEN iRacing league
- ☐ Submit road and oval liveries to the Google Drive folder before the first regular season race
- ☐ Review these rules and the iRacing Sporting Code

Before Each Race

- ☐ Confirm driver availability (no substitutes permitted)
 - ☐ Update iRacing software and confirm the week's car and track content
 - ☐ Confirm required equipment and connection
 - ☐ Join the Drivers Meeting on Google Meet by 4:40 PM ET with cameras on
 - ☐ Confirm all drivers are visible for attendance
-

1. Competition Overview

1.1 Purpose

The Indiana Esports Network (IEN) establishes this ruleset to define the official competition standards for **iRacing**.

These rules apply to each team that has registered and met the requirements of the league, as well as all coaches, competitors (drivers), and other participating individuals.

All participants must also follow the requirements established in the current IEN Member Handbook.

1.2 Competition Model

Competition Type:

Individual-Based

Description:

iRacing is a motorsport simulation in which drivers from member schools compete against one another in weekly online race sessions. Each session includes practice, qualifying, and a 20-minute race. Road races use the Mazda MX-5 and oval races use the Street Stock, with tracks following the iRacing Official Rookie Series for that week. Drivers earn points for qualifying and race performance throughout both semesters, and the driver with the most points at the end of the season is the champion. Success requires car control, racecraft, consistency, and clean driving.

1.3 Definitions

Term	Definition
Race	An event where competitors attempt to finish first on a specified racetrack in a specified car. Races are typically 20 minutes long, and

Term	Definition
	the winner is the first competitor to cross the finish line after the 20-minute timer expires.
Season	The full span of scheduled competitive play during an academic year.
Oval	A purpose-built race track with typically 3 or 4 left turns and no significant elevation change. Corners are typically banked.
Road	A purpose-built race track with more than 3 turns, both left- and right-hand corners, and typically elevation changes. Corners may or may not be banked.
Competitor / Driver	Any student who competes in an IEN league race. There is no race requirement for competitors, and all competitors score points for starting a race without being disqualified. The terms are used interchangeably.
Session	A period of time rented from iRacing that may contain a practice period, qualifying, and a race.
Practice	A period during a session where competitors are not scored and incident points do not count. IEN rules still apply, but results do not affect qualifying or the race.
Qualifying	A period during a session where lap times and/or speed determine the starting order for the race. Qualifying may be open (all drivers on track, unlimited laps within a time limit, typically 10 minutes) or closed (one driver on track at a time for a set number of laps within a time limit, typically 10 minutes).
Incident Points	Points automatically assigned by the sim when a driver goes off track, loses control, or makes contact. Points accumulate over the race and are the basis for sim-assigned penalties (see Section 7).
Livery	The paint scheme on a car.
iRacing Coordinator	The league manager(s) elected by the IEN Board to administer races. iRacing-specific questions should be directed to the iRacing Coordinator(s) via Discord.

2. Team and Player Structure

2.1 Roster Information

Requirement	Details
Maximum Roster	5 drivers per school May be increased with iRacing Coordinator approval, depending on total league size
Active Players	All rostered drivers may race each week
Substitutes	Not permitted

2.2 Coaches

Coach requirements:

All coach eligibility, supervision, and participation requirements are governed by the IEN Bylaws and General Competition Rules.

2.3 Registration

Registration for iRacing requires membership in the Indiana Esports Network. Schools complete the following steps in order:

1. **LeagueOS Registration.** Complete LeagueOS registration. LeagueOS is used only for initial registration and tracking purposes.
2. **IEN iRacing Google Form.** School coaches or directors complete the Google Form with all required competitor information. The form is located in the iRacing coach Discord channel.
3. **iRacing League Registration.** Competitors may request to join the league through iRacing but will not be added until the Google Form has been received.

Join Windows

- Competitors may only be added to the league at the start of the fall and spring IEN seasons.
- Schools adding competitors in the spring must complete an orientation call with the iRacing Coordinator, school coach, and drivers before being added.
- Additions outside the join windows are permitted only in extraordinary circumstances and with iRacing Coordinator approval.

2.4 Eligibility

To compete as a driver in the racing season, a competitor must:

- Be in good standing with respect to any iRacing account registered in their name, with no non-disclosed violations of the iRacing User License Agreement. Good standing means free of any suspensions, bans, or other account discipline.
- Be over the age of majority in their jurisdiction of residence.
- Be a legal resident of the United States or Canada.
- Be currently enrolled, or planning to be enrolled, as a full-time student at an eligible institution during the competitive season.
- Not be on academic probation at their eligible institution at any point during the competition.
- Agree to be bound by these rules.

Account Identity

- Drivers who race under a different name violate the iRacing terms of service and are not allowed in the IEN iRacing league.
- Substitutes are not permitted in races. Competitors unable to participate in a race week forfeit any possible points for that week, with no method of recovery.

2.5 Player Names

Players must use their real name for this activity. The exception is when a parent or guardian registers the student on an account under the parent's or guardian's name. Names can be updated in iRacing by submitting a support ticket.

2.6 League Liveries

Competitors are required to submit custom liveries for both the road and oval cars.

- Liveries must be submitted in the correct format to the Google Drive folder before the first regular season race to participate in the season.
 - Liveries may be changed at any point during the season with iRacing Coordinator approval.
 - Competitors are not required to display league liveries during races, but it is encouraged.
 - **Rookie Stripe:** Competitors in their first iRacing season must display the yellow rookie stripe on the back of their cars. The rookie stripe is a layer in the template file; do not create your own. Reach out in Discord with any questions.
 - Liveries should represent the school or institution and be coordinated between drivers, but do not need to be identical. Sponsor logos are allowed and encouraged.
 - All liveries must be school appropriate, as they appear on the livestream. When in doubt, leave it out.
-

3. Match Format

3.1 Competition Format

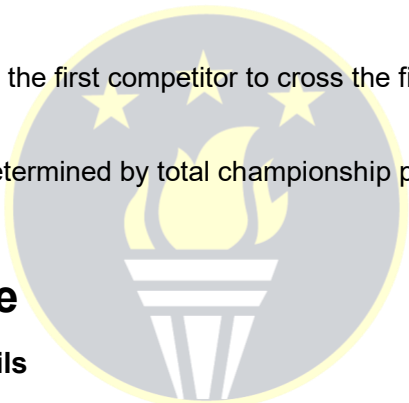

iRacing competitions are conducted as a weekly **race session** open to all registered drivers.

- Each session includes an open practice period, a qualifying period, and a 20-minute race.
- Drivers do not need to participate in practice or qualifying to participate in the race.
- Starting order for the race is set by qualifying results.
- All drivers must attend the Drivers Meeting to be eligible to race (see 3.4).

Determining the Winner

- The winner of the race is the first competitor to cross the finish line after the 20-minute race timer expires.
- Season standings are determined by total championship points (see Section 6).

3.2 Match Structure

Category	Details
Match Type	Individual race session
Sessions Per Week	1
Session Length	1 hour
Practice	30 minutes (not scored)
Qualifying	10 minutes (typically)
Race	20 minutes
Victory Condition	First competitor to cross the finish line after the 20-minute timer expires

3.3 Race Day Timeline

Eastern	Central	Activity
4:40 PM	3:40 PM	Mandatory Drivers Meeting on Google Meet (attendance taken)
5:00 PM	4:00 PM	iRacing session opens; open practice begins (30 minutes)
5:25 PM	4:25 PM	IEN iRacing YouTube stream opens
5:30 PM	4:30 PM	Qualifying begins (typically 10 minutes)
5:40 PM	4:40 PM	Race begins (20 minutes)
6:00 PM	5:00 PM	iRacing session ends

3.4 Drivers Meeting

The Drivers Meeting takes place 20 minutes before the start of the practice period (4:40 PM ET). Drivers access the meeting through a Google Meet link shared on the student Discord. **All drivers must attend to be eligible for the race.** Drivers who do not attend will not be able to participate.

- Cameras must be on for the meeting.
- Drivers do not need to join from the same machine they race on. Schools are encouraged to use one camera with all drivers visible in the frame rather than separate feeds, as this makes attendance easier.

3.5 Stoppage of Play

Directed Pause

IEN officials may pause a race at any time. Competitors should follow in-game instructions through either the sim flag system or radio announcements in the sim.

iRacing Server Disconnect

Races are hosted by iRacing, so a server disconnect is rare but significant. If one occurs, it shall be resolved as follows:

1. **During practice:** the practice session will not be restarted.
2. **During qualifying:** the new session will start with the full qualifying time remaining.
3. **During the race, at or after 70% complete (14 minutes):** the running order at the disconnect is the finishing order, and the race will not be restarted.

4. **During the race, before 70% complete:** the race is red flagged, and every attempt will be made to restart with the remaining time in the running order before the disconnect. If that order cannot be recovered, the race restarts in the qualifying order from that session.

All restarts depend on the iRacing service being able to start a new session. A makeup race shall not be started if it would finish after 6:20 PM ET. A new race session must be started by the iRacing Coordinator or an IEN Board Member.

Participant Disconnect

If a driver disconnects mid-race, they may (and should) rejoin as soon as possible. Individual driver disconnects, regardless of circumstance, are not a reason to stop a race or change the finishing order.

4. Competition Schedule

4.1 Season Structure

Phase	Details
Preseason	Optional but encouraged for testing equipment and connections. The first two races (one road, one oval) do not count for points.
Regular Season	Runs in both semesters as an individual points championship.
Playoffs	The iRacing regular season extends into the first week of playoffs. iRacing does not use a playoff format.

4.2 Season Dates

Races are held on **Thursdays**.

Preseason 10/15/26 - 10/29/26

Regular Season 11/5/26 - 12/10/26

Winter Break 12/11/26 - 1/3/27

Regular Season (continued) 1/7/27 - 2/11/27

Season Ends Playoffs Week 1 (2/25/27)

4.3 Exhibition Events

- **Student Vote Race (Fall):** Students propose car and track combinations in the race vote channel on Discord and vote with reactions. Placement may shift to keep the calendar balanced.
- **All-Star Race (Spring):** An exhibition race for competitors who scored at least one podium during the season. Track and car are chosen by the invited competitors. This race is not scored.
- **IHSEN Indianapolis 500 (Spring):** An exhibition race.

Exhibition events may use content beyond the base iRacing subscription.

5. Official Game Settings

5.1 Required Settings

IEN competitions will use:

- Setup: Managed by Sim
- Driving Assists: None
- Racing Line: Off
- Fuel: Enough for approximately 75% of the race (pit stops are part of race strategy all season)
- Weather: Rain may occur in road races in the spring semester only

5.2 Approved Cars and Tracks

Discipline	Car	Tracks
Road	Mazda MX-5	Track from the iRacing Official Rookie Series for that week
Oval	Street Stock	Track from the iRacing Official Rookie Series for that week

- The full schedule may not be available until iRacing releases it (quarterly).
- All content used in official IEN league races is available with the base iRacing subscription.
- The season will be balanced between road and oval courses, and every attempt will be made to balance short and long tracks of each type. The official iRacing schedule may limit this.

5.3 Hosting Procedures

- All races are hosted through iRacing.
- The race schedule is set by the iRacing Coordinator.
- Competitors must be members of the IEN iRacing league.

5.4 Streaming

There are no streaming restrictions for schools or drivers. IEN hosts an official stream at youtube.com/@IHSENiRacing.

6. Championship Scoring

6.1 Scoring Overview

iRacing handles all scoring in the sim; no reporting to LeagueOS is necessary. Competitors score points for both qualifying and race performance. **The competitor with the most points at the end of the season wins.**

All competitors score race points if they start the race, even if they do not finish, provided they are not disqualified.

6.2 Qualifying Points

Position	Points
1st	15
2nd	10
3rd	5
4th	4
5th	3
6th	2
7th	1

6.3 Race Points

Position	Points	Position	Points	Position	Points
1st	50	11th	19	21st	9
2nd	40	12th	18	22nd	8
3rd	35	13th	17	23rd	7
4th	32	14th	16	24th	6
5th	30	15th	15	25th	5
6th	28	16th	14	26th	4
7th	26	17th	13	27th	3
8th	24	18th	12	28th	2
9th	22	19th	11	29th	1
10th	20	20th	10	30th	0

6.4 Bonus Points

Bonus	Points
Fastest Lap	5
Most Laps Led	5
Lap Led Bonus	1

Maximum points from one race session: 76 (15 qualifying + 5 fastest lap + 5 most laps led + 1 lap led + 50 race win).

7. Sporting Code and Penalties

7.1 iRacing Sporting Code

Penalties may be assessed by the sim, the iRacing Coordinator, or both for incidents and infractions during the season. The official iRacing Sporting Code is the primary document for in-sim rules, and all of its rules are in effect for the IEN iRacing league. The Sporting Code is updated frequently and can be found at iracing.com/iracing-official-sporting-code.

7.2 Incident Point System

iRacing assigns points for any type of incident. These points are counted during the race session.

Incident Type

Light contact with another driver

Wheels off the racing surface

Loss of control

Contact with other object

Heavy contact with another driver

Value

0x

1x

2x

2x

4x

7.3 IEN Incident Points Policy

Incident Points

Penalty

0-7

No penalty

8

Drive-through penalty (automatic, assigned by the sim)

12

Drive-through penalty (automatic). Drivers are encouraged to park the car in pit lane to avoid disqualification.

16

Automatic disqualification from the race. The iRacing Coordinator will remove any points earned in that session.

7.4 Disqualification Policy

Drivers are encouraged to drive as cleanly as possible. This policy is rarely used but is in place to keep competition fair. Incident-point disqualifications are handled as follows:

1. **First disqualification:** removed from the race; all points from that session are deleted.
 2. **Second disqualification:** banned from the next race on the calendar.
 3. **Third disqualification:** removed from the league; all earned points are forfeited.
-

8. Conduct

8.1 Sportsmanship and Professionalism

All participants are required to act in a respectful, sportsmanlike manner at all times. IEN Administration maintains sole judgment over violations of these rules and standards of good sportsmanship.

- Participants may not use language or engage in conduct deemed by IEN Administration to be obscene, foul, vulgar, insulting, threatening, abusive, libelous, slanderous, or otherwise offensive or objectionable, and may not promote or incite hatred or discriminatory conduct. This applies to the competition, social media, and public events such as streams.
- Participants shall treat everyone watching or participating with respect, and may not take any action or gesture directed at another participant, administrator, or other party, or incite others to do so, that is abusive, insulting, mocking, or disruptive.
- Participants may not offend the dignity or integrity of a country, private person, or group of people through contemptuous or discriminatory words or actions on account of race, skin color, ethnic, national or social origin, gender, language, religion, political opinion, financial status, birth or any other status, sexual orientation, or any other reason.
- Participants are expected to behave professionally, including being on time and ready for all scheduled races and responding to requests from IEN Administration in a timely manner.

8.2 Competitive Integrity

Drivers are expected to race at their best at all times and maintain behavior consistent with good sportsmanship, honesty, and fair play. IEN Administration maintains sole judgment over violations. Unfair conduct includes, but is not limited to:

- **Best Ability:** Participants must compete to the best of their ability at all times.
- **Betting and Gambling:** Participants may not, directly or indirectly, conduct, promote, or benefit from betting or gambling on or in connection with any race.
- **Collusion:** Participants shall not conduct or promote collusion, defined as any agreement between two or more participants to disadvantage opposing participants.

- **Match Fixing:** Participants shall not offer, conspire, or attempt to influence the outcome of a race by any means other than competitive play.
- **Hacking:** Participants shall not conduct or promote any act of hacking or modifying the game.

Cheating

Cheating will not be tolerated. Each participant is responsible for knowing and understanding the Sporting Code as it exists during the season. If the iRacing Coordinator determines that a competitor, coach, school director, or any of their representatives is cheating or otherwise interfering with the competition, that individual will face penalties determined by IEN Administration. Examples include, without limitation:

- Maliciously or intentionally altering, or attempting to alter, the results of any race, including intentionally crashing out another driver or driving intentionally slowly to give an unfair advantage to a team or individual.
 - Interfering with another person's connection to the game service through Distributed Denial of Service (DDoS) or any other means.
 - Playing, or allowing another person to play, on an iRacing account registered in someone else's name.
-

9. Document History

Version	Date	Changes
1.0	10/6/26	Initial release in the IEN standard ruleset format (consolidated from iRacing Rules 2026-2027)

The logo for Indiana Esports Network (IEN) is centered in the background. It features a large, stylized 'IEN' in a light blue-grey color. Below it, the words 'INDIANA ESPORTS' are written in a smaller, all-caps, sans-serif font. At the bottom, the word 'NETWORK' is written in a similar font, flanked by two horizontal yellow lines.
